

# International Journal of Smart Grid and Clean Energy

## CONTENTS

---

### Volume 6, Number 1, January 2017

#### Power System Management

Implementation of improved positive and negative sequences separation phase-locked loop under grid voltage sags..... 1

*Chen Bing, Hei Chenyang, Guan Yuanpeng, Xie Yunxiang, and Zeng Zhiwu*

Implementation of battery management module for the microgrid: A case study..... 11

*Li Han, Syed Furqan Rafique, and Zhang Jianhua*

Perspective of active distribution network for industrial application..... 21

*Lu Ting, Zhou You, Yang Ye, Mu Shujun, Zhang WeiGe, and Jiang Jiuchun*

#### Renewable Energy Systems Management and Application

Performance assessment of solar air heater duct roughened with perforated-winglet vortex generators..... 31

*Narin Koolnapadol, Pongjet Promvonge, and Sompol Skullong*

Empirical model to predict the operating temperature of the modules of a photovoltaic system ..... 40

*P. Mora, M. Piliougine, J. Carretero, G. Nofuentes, and M. Sidrach-de-Cardona*

Analysis of a photovoltaic self-consumption facility with different net metering schemes..... 47

*A. Ayala-Gilardón, L. Mora-Lópezb, and M. Sidrach-de-Cardona*

#### Sludge Compost

The influence of the C:N ratio on the composting rate..... 54

*M. Neugebauer, P. Sołowiej, J. Piechocki, W. Czekala, and D. Janczak*

The influence of substrate C: N ratios on heat generation during the composting process of sewage sludge..... 61

*Piotr Sołowiej, Maciej Neugebauer, Jacek Dach, and Wojciech Czekala*

#### Energy Economics

Investment cost analysis for electricity generation with renewable energy and measurement of water pressure from weir to water conservation of small hydropower project..... 67

*Chamni Jaipradidtham*
