

Table of Contents

Chapter 1: Energy and Chemical Engineering

Hydrochar Generation from Hydrothermal Carbonization of Organic Wastes....3 <i>P Kantakanit, N Tippayawong, S Koonaphapdeelert and A Pattiya</i>	3
Experimental Investigation of hot Water Generation from Small CaO/Ca(OH) ₂ Thermochemical Energy Storage System.....9 <i>N Takham and N Tippayawong</i>	9
Decomposition of Methane Hydrate in the Presence of Sodium Dodecyl Sulfate.....15 <i>A O Dudoladov, M S Vlaskin and M V Gaykovich</i>	15
Chemical Composition of Bio-oil Produced by Hydrothermal Liquefaction of Microalgae with Different Lipid Content.....21 <i>M S Vlaskin, Y I Kostyukevich, G N Vladimirov, M V Gaykovich, A O Dudoladov, N I Chernova, S V Kiseleva, A Z Zhuk, O S Popel , E N Nikolaev</i>	21
Effects of Lithium Salt on Electrochemical Reactions at a SiC Electrode in Propylene Carbonate-based Solutions.....27 <i>S Jeong</i>	27
Research on Downhole Risk Assessment Method for Production Wells <i>N T Si, Q W Chen, J Q Long and Y H Gao.....33</i>	33
A Novel Hybrid Ensemble Classification Approach to Candidate Well Selection for CBM Well Fracturing.....39 <i>Lei Xu and Fang Liu</i>	39
Using Ion-Exchange to Recovery of Germanium from Waste Optical Fibers by Adding Citric Acid.....47 <i>Wei-Sheng Chen, Bi-Cheng Chang, and Yen-Jung Chen</i>	47
Mechanical Extraction of Protein Solution from Microalgae by Ultrasonication.....53 <i>A Kuhavichanan, P Kusolkumbot, S Sirisattha and C Areeprasert</i>	53
The Promotion by Steam on CaO Adsorbing SeO ₂ at Medium Temperature.....61 <i>Yu Lou, Yaming Fan, Chengkai Pang, and Yuqun Zhuo</i>	61

Chapter 2: Resources and Environmental Engineering

- Mapping Groundwater Vulnerability Zones in Eogenetic Karst Catchment Using Particle-tracking Metho.....75
D K S Y Klaas, M A Imteaz, A Arulrajah, I Sudiayem, E M E Klaas and E C M Klaas
- Land Unit Mapping and Evaluation of Land Suitability for Agro – forestry in Thua Thien Hue province – VietNam as an Example.....80
Nguyen Ngoc Dan and Lei Guo Ping and Le Phuc Chi Lang
- Preliminary Study on the Application of Temperature Swing Adsorption in Aqueous Phase for Pesticide Removal.....90
B Aumeier, H Q A Dang and M Wessling
- Pollutants Emission Characteristics of an Ultra-low Coal-fired Power Unit.....95
Li Bing, Song Yongqiang, Zhang Qilong, Zhou Can and Duan Haoran
- Pretreated Fruit Peels as Adsorbents for Removal of Dyes from Water.....101
Nguyen Thi Hong Nhung, Bui Thi Phuong Quynh, Pham Thi Thu Thao, Hoang Ngoc Bich and Bach Long Giang
- Synergistic Studies on the Removal of Dyes by Waste(*Metroxylon sagu*) Based Activated Carbon: an Optimization Study.....109
JO Amode, Md Z Alam, AH Mirza, CC Mei and JH Santos
- The Recycling of Spent Power Battery: Economic Benefits and Policy Suggestions.....118
Xiaoming Ma, Yuan Ma, Jiping Zhou, and Siqin Xiong
- Information Organization of 3-D Landslides Board Game for Ecological Educations.....124
F L Chao, S L Shih, Y C Chien, and W H Kao
- Manual and Automatic Volume Measuring Methods for Industrial Timber.....131
Z P asztory, B Heinzmann, M-C Barbu

Chapter 3: Power System and Automation

Substation Reliability Evaluation Considering the Failure Events.....143
Sung Hun Kim and Dong Ju Lee

Study of the PWM Control Strategies for Three Switches Isolated Boost DC-DC Converter.....151
Truong-Duy Duong, Minh-Khai Nguyen, Young-Cheol Lim and Joon-Ho Choi

Power Quality Feature Modelling of Waveform Disturbances for Distribution System Diagnosis.....159
Sang-Keun Moon, Jong-Hyuk Lee, Hong-Rok Lim, Sang-Won Oh, Dae-Won Seo, Jin-O Kim

A Single Phase Quasi H-Bridge Boost Inverter with Common Ground for Grid connected Applications.....166
TT Tran, MK Nguyen, YC Lim and JH Choi

A Simulink Model of Photovoltaic Modules under Varying Environmental Conditions.....173
Innocent Nkurikiyimfura, Bonfils Safari and Emmanuel Nshingabigwi

Chapter 4: Renewable Energy and Building Energy System

Analysis of the Constraints in the Renewable Energy Sector within a Multi-level Energy Transition Perspective (MLP): The Case of the Philippin.....183
Phoebe Grace Saculsan

Energetical Examination of Pyrolysis Carbon Black and Pine Shavings Blend Pellets.....190
V Papp and D Szalay and A Vágvölgyi

Sustainability of Refuse Derived Fuel Potential from Municipal Solid Waste for Cement' s Alternative Fuel in Indonesia (A Case at Jeruklegi Landfill, in Cilacap).....198
W Paramita, D M Hartono, T E B Soesilo

Analysis of the Base Material Footprint of Conventional and Lignocellulosic Biofuel Production.....204
D Szalay, V Papp, and I Czupy

Utilization of Fast Growing Plantation Timber as Bioenergy in Hungary.....212
R N émeth, S Feh ér and Sz Kom án

Renewable Energy and Smart Hybrid Strategies for High Performance
Architecture and Planning in Case of Tehran, Iran.....217
F Heidari , M Mahdavinejad and SH Sotodeh

Numerical Analysis on the Structure of Wall Implanted with Heat Pipes.....227
Zhengyu Wang and Xianghui Su

Chapter 5: Biomass Pyrolysis and Combustion

Oxidative Pyrolysis of Agricultural Residues in Gasification and Carbonization
Processes.....235
*Xuan-Huynh Pham, Laurent Van De Steene, Bruno Piriou, Sylvain
Salvador*

Rice Husk Gasification: from Industry to Laboratory.....243
*Hong Nam Nguyen, Laurent Van De Steene, Thi Thuy Hang Le, Duc Dung
Le and Minh Ha-Duong*

Impact of Co-firing Straw for Power Generation to Air Quality: A Case Study in
Two Coal Power Plants in Vietnam.....252
A H Truong and M Ha-Duong

Pyrolysis and Char Oxidation of Biomass and Coal Blends: Kinetic Study Using
Thermogravimetric Analysis.....260
Hoang Anh Tran, Laurent Van de Steene and Duc Dung Le

Pyrolysis of Corn Residues: Kinetic Analysis using Discrete Distributed
Activation Energy Model.....267
T Onsree, P Sittisun, R Sasaki and N Tippayawong

Bio-oil Production from Ablative Pyrolysis of Corncob Pellets in a Rotating
Blade Reactor.....274
N Khuenkaeo and N Tippayawong

Technical Problems of Wood Chips Utilization.....280
I Czupy, F Szűcs and A Vágvölgyi

Chapter 6: Power and Mechanical Engineering

Modelling of Aluminium-fuelled Power Plant with GasTurbine.....289
M S Vlaskin, M V Gaykovich and A O Dudoladov

Techno-economic Assessment of Turbine Inlet Air Cooling for Cogeneration Plant in Malaysia Climate.....	297
<i>Saw Chun Lin, Choong Chee Guan, Azmi Naroh, Danny Tam Hong Khai and Mohd Kamarul Yusri Yusof</i>	
Kinetic of Biogas Production in Co-Digestion of Vegetable Waste, Horse Dung, and Sludge by Batch Reactors.....	304
<i>P V Dinh, T Fujiwara, S T Pham Phu, and M G Hoang</i>	
Improved Design of Ultrasonic Cleaning Tank Using Harmonic Response Analysis in ANSYS.....	312
<i>W Tangsopa, T Keawklan, K Kesngam, S Ngaochai and J Thongsri</i>	
The Creation of Modern Electric Vehicles with Additional Source of Energy.....	320
<i>K Karpukhin, A Terenchenko, and A Kolbasov</i>	
Chapter 7: Urban Engineering and Sustainable Development	
The Effect of Urban Development Plans on City's Old Context.....	327
<i>S Kalantari and Zh Shan</i>	
A Review on the Controlling Factors that Affecting the Stormwater Retention Performance of Green Roof.....	336
<i>M F Chow, M F Abu Bakar and L M Sidek</i>	
Waste Recycling System for a Tourism City in Vietnam: Situation and Sustainable Strategy Approach – Case Study in Hoi An City, Vietnam.....	342
<i>S T Pham Phu, T Fujiwara, P V Dinh and Hoa K T</i>	
Sustainable Design of Curved Wood Rice Barrel with Healthy Considerations.....	350
<i>F L Chao, C K Wu, H S Hsieh</i>	
CAE Supported Sustainable Product Development – Case Study of Compact Flow Guiding with Flame Lift Mechanism.....	358
<i>W L CHEN and F L CHAO</i>	
Author Index.....	367
